HI!

I've been a software engineer for over 10 years, from 2017 I focused my career path mostly on Frontend. I'm a team player but I also know how to be independent. I do like mentoring, ordering, clean code, and research.

I'm interested in web development, front-end architecture, 3D environments, gaming, and front-end trending libraries and frameworks.

I do know that very cool things happen in the backend too.
I have also a place for blockchain interest.

EXPERTIES

- Good practices
- Teamwork
- Research
- Communication
- Adaptable
- Innovative
- Mentoring

EDUCATION

- **2014-2017**
  ISTEA - TERCIARY DEGREE
