

ALEJANDRO VALENCIA

PRODUCT-MINDED SOFTWARE ENGINEER

Senior Product Engineer with 10+ years of experience bridging the gap between business strategy and technical execution. Focused on rapid MVP delivery, AI-driven workflows, and building scalable applications that solve real user problems. Proven track record of owning the end-to-end product lifecycle—from lean ideation and architecture to user-centric UI and high-performance deployment.

WORK EXPERIENCE

● Tech Lead - Litebox (11/25 - Present)

- Align engineering output with business goals by driving the technical and product strategy across multiple concurrent applications.
- Ensure scalable and pixel-perfect delivery without compromising deployment speed through strict cross-project architectural standards.
- Accelerate delivery cycles and automate code reviews by leading the integration of AI coding assistants (Claude Code, Copilot) directly into CI/CD pipelines and daily workflows.

Senior software engineer - Bondly (2024-2025)

Led end-to-end product development initiatives to drive user engagement. Partnered with stakeholders to rebuild the scheduling tool, significantly improving the user conversion funnel. Leveraged GenAI APIs (NestJS) and tools like GitHub Copilot to drastically reduce MVP time-to-market for new content features.

Independent Product Engineer - (2022-2024)

Owned the end-to-end technical lifecycle, leveraging Next.js, TypeScript, and AWS Serverless to deliver high-performance applications optimized for fast market validation and user growth.

Senior Full Stack Engineer - StackZone (2022 - 2023)

Improved WebApp via refactoring, mentoring, and TS best practices. Built cost modules, updated core libs, and created Serverless APIs with PostgreSQL. Stack: React, TS, AWS, Redux-Saga, Cypress..

Sr Software Engineer - Santander Tecnologia (2019 - 2022)

Frontend lead for the Checks team. Built microsites and BFF with NestJS. Led internal React training. Stack: React, NestJS, TS, Redux-Toolkit, testing.

Software Engineer - ParkAssist (2020 - 2021)

Developed a parking admin platform using AWS and React. Delivered performant client-side features. Stack: React, TS, Redux, IAM, IoT, DynamoDB.

Software Engineer - Valtech (2017 - 2020)

Built backend APIs (Java 8, Spring Boot) and launched React backoffice with styled-components. Stack: Java, MongoDB, Swagger, React.

Backend developer - Multiple companies (2011-2017)

- AI-Driven Engineering & Architecture: Scalable full-stack development and optimized, AI-assisted workflows.
- Product Strategy & MVP Delivery: Lean methodologies, rapid scoping, user-centric design, and data-driven iteration (SEO/Analytics).
- Technical Leadership & Mentorship: Cross-functional collaboration (Dev, Product, UX) and agile team enablement.

TECH STACK

- Frontend: React.js, Next.js, Remix
- Backend: Node.js, Express.js, NestJS
- Database: RDS/SQL & NO-SQL
- State Management
- Styling: Tailwind CSS,
- Testing: Cypress, Vitest, Jest
- Cloud/DevOps: AWS, Vercel, GitHub Actions
- AI & Automations: Claude Code, GitHub Copilot, Cursor, LLM Integrations (Gemini), AI-Assisted CI/CD, Automated Code Reviews.

EDUCATION

ISTEA - TERTIARY DEGREE 2014/2017

Superior Software Development Technician

CERTIFICATIONS

- CLAUDE CODE - [HTTPS://ANTHROPIC.SKILLJAR.COM/](https://anthropic.skilljar.com/)
- EPIC REACT – KENT C. DODDS ([EPICREACT.DEV](#))
- CSS-IN-JS – JOSH W. COMEAU ([CSS-FOR-JS.DEV](#))

Languages

- Spanish – Native
- English – B2/C1 (Professional Working Proficiency)
