

ALEJANDRO VALENCIA

FRONTEND-FOCUSED SOFTWARE ENGINEER

Full-stack Software Engineer with 10+ years of experience building scalable web applications. Since 2017, I've specialized in Frontend development with React and TypeScript, delivering MVPs and full platforms for startups and tech-driven teams. Strong focus on clean architecture, product thinking, and cross-functional collaboration.

WORK EXPERIENCE

Product engineer - Bondly (09/24 - Present)

Led end-to-end product development. Launched cookie consent, rebuilt scheduling tool, and improved SEO/tracking. Built AI-based content features using GenAI APIs in NestJS. Leveraged GitHub Copilot, v0, and Lovable to accelerate delivery. Stack: Next.js, Remix, NestJS, Supabase, TypeScript.

Freelance developer - Bondly (2022-2024)

I possess significant expertise in developing Minimum Viable Products (MVPs) from inception to completion. Additionally, I have collaborated closely with Chief Technology Officers (CTOs) and Chief Executive Officers (CEOs) on various startup initiatives.

My recent experience as a Freelance Developer (February 2023 - Mid 2024) is centered on building high-performance web applications. I have extensively utilized Next.js, React, and TypeScript, complemented by Tailwind CSS, Material-UI, Redux-Toolkit, Zustand, and AWS Serverless for the development of various platforms and websites.

Senior Full Stack Engineer - StackZone (03/22 - 08/23)

Improved WebApp via refactoring, mentoring, and TS best practices. Built cost modules, updated core libs, and created Serverless APIs with PostgreSQL. Stack: React, TS, AWS, Redux-Saga, Cypress.

Lead Frontend Developer - Commit Studio (11/21 - 03/22)

Led feature development and team support. Delivered credit partner platform (PedidosYa) and e-commerce CLI. Stack: Next.js, TS, MySQL, Redux-Toolkit, testing.

Sr Software Engineer - Santander Tecnologia (06/20 - 11/21)

Frontend lead for Checks team. Built microsites and BFF with NestJS. Led internal React training. Stack: React, NestJS, TS, Redux-Toolkit, testing.

Software Engineer - ParkAssist (06/20 - 11/21)

Developed a parking admin platform using AWS and React. Delivered performant client-side features. Stack: React, TS, Redux, IAM, IoT, DynamoDB.

Software Engineer - Valtech (01/17 - 06/19)

Built backend APIs (Java 8, Spring Boot) and launched React backoffice with styled-components. Stack: Java, MongoDB, Swagger, React.

Backend Engineer - Multiple companies (2011-2017)

SKILLS

- Full-Stack Web Development
- Rapid Prototyping & MVP Delivery
- Product Thinking & User-Centered Design
- Codebase Scalability & Maintainability
- Cross-functional Collaboration (Dev, Product, UX)
- Ownership & Initiative in Agile Environments
- Lean Startup & Agile Methodologies

TECH STACK

- Languages: JavaScript, TypeScript
- Frontend: React.js, Next.js, Remix
- Backend: Node.js, Express.js, NestJS
- Database: PostgreSQL, Supabase, MongoDB
- State Management: Redux Toolkit, Zustand, Context API
- Styling: Tailwind CSS, Styled Components, CSS Modules
- Testing: Cypress, Vitest, Jest
- Cloud/DevOps: AWS, Vercel, GitHub Actions
- AI: Gemini, AI Code Generation tools

EDUCATION

ISTEA - TERTIARY DEGREE 2014/2017

Superior Software Development Technician

CERTIFICATIONS

- EPIC REACT - KENT C. DODDS ([EPICREACT.DEV](#))
- CSS-IN-JS - JOSH W. COMEAU ([CSS-FOR-JS.DEV](#))

Languages

- Spanish - Native
- English - B2/C1 (Professional Working Proficiency)
